SCH Business Model & Strategy

Goal and Vision

- Over the 60 years history, SCH group has remarkably distinguished from other trading companies in Taiwan by helping Taiwan local industries finding right products, improving technical know-how, and getting satisfactory technical service.
- To continue extend SCH market scale ,we try to carry out the marketing communication, technically research and new market development. The following is the major functions and the tasks we do here.
 - Detecting and evaluating new opportunities.
 - Mapping customer perceptions, preferences, and requirements.
 - Communicating customer wants and expectations
 - Customer and product database library
 - Product and Market research
 - The platform of company source and the market connection

Our vision is “ Growth with partner and customers”
